

July 19, 2011

NewsBank's products are developed with the goal of providing access to all users. Every effort is made to make content understandable and navigable through multiple mechanisms.

NewsBank is fully compliant with the United States' Americans With Disabilities Act (ADA)/Section 508 and Level A of the Web Content Accessibility guidelines. In addition, we give careful consideration to the higher levels of WCAG and other accessibility recommendations, and we implement them whenever possible. NewsBank monitors ADA (Americans with Disabilities Act of 1990) standards on a regular basis and updates products for compliance as needed.
